Unlimited comfort in a multifunctional sofa

It is with great pleasure that we present Cosmo, the innovative sofa system designed for us by the French designer Philippe Tabet. Combining refined design and unparalleled comfort, Cosmo redefines the idea of furniture with a collection that offers a wide range of customisation possibilities, perfect to fit every space and lifestyle.

Harmony between Design and Functionality

Cosmo is not simply a sofa, but a true ecosystem of comfort and practicality, characterised by a distinctive and welcoming shape. Equipped with optional accessories, Cosmo easily transforms from a

cosy refuge to a dynamic and efficient platform. The vertical steel lines house a series of accessories that enrich the experience: reading lamps, USB sockets with shelf and wireless charging, Schuko sockets and kidney cushions.

Versatility and Elegance

Cosmo comes in various configurations to meet every furnishing need: from the single-seater armchair to the two- and three-seater sofa, the ottoman, the low table and the coffee table. But the surprises don't end here! The collection also extends to Cosmo Outdoor, allowing you to furnish outdoor spaces with style.

Durability and Refinement

Made with a steel tube frame, Cosmo guarantees durability and timeless style. Every detail has been

designed to offer not only impeccable aesthetics, but also functionality and comfort.
