## et al.

Dear customers,

it is with enthusiasm that we continue to share with you the progress of our evolution. As part of our ongoing commitment to remain at the forefront of the market and better meet your needs, we are pleased to announce further updates to our product range.

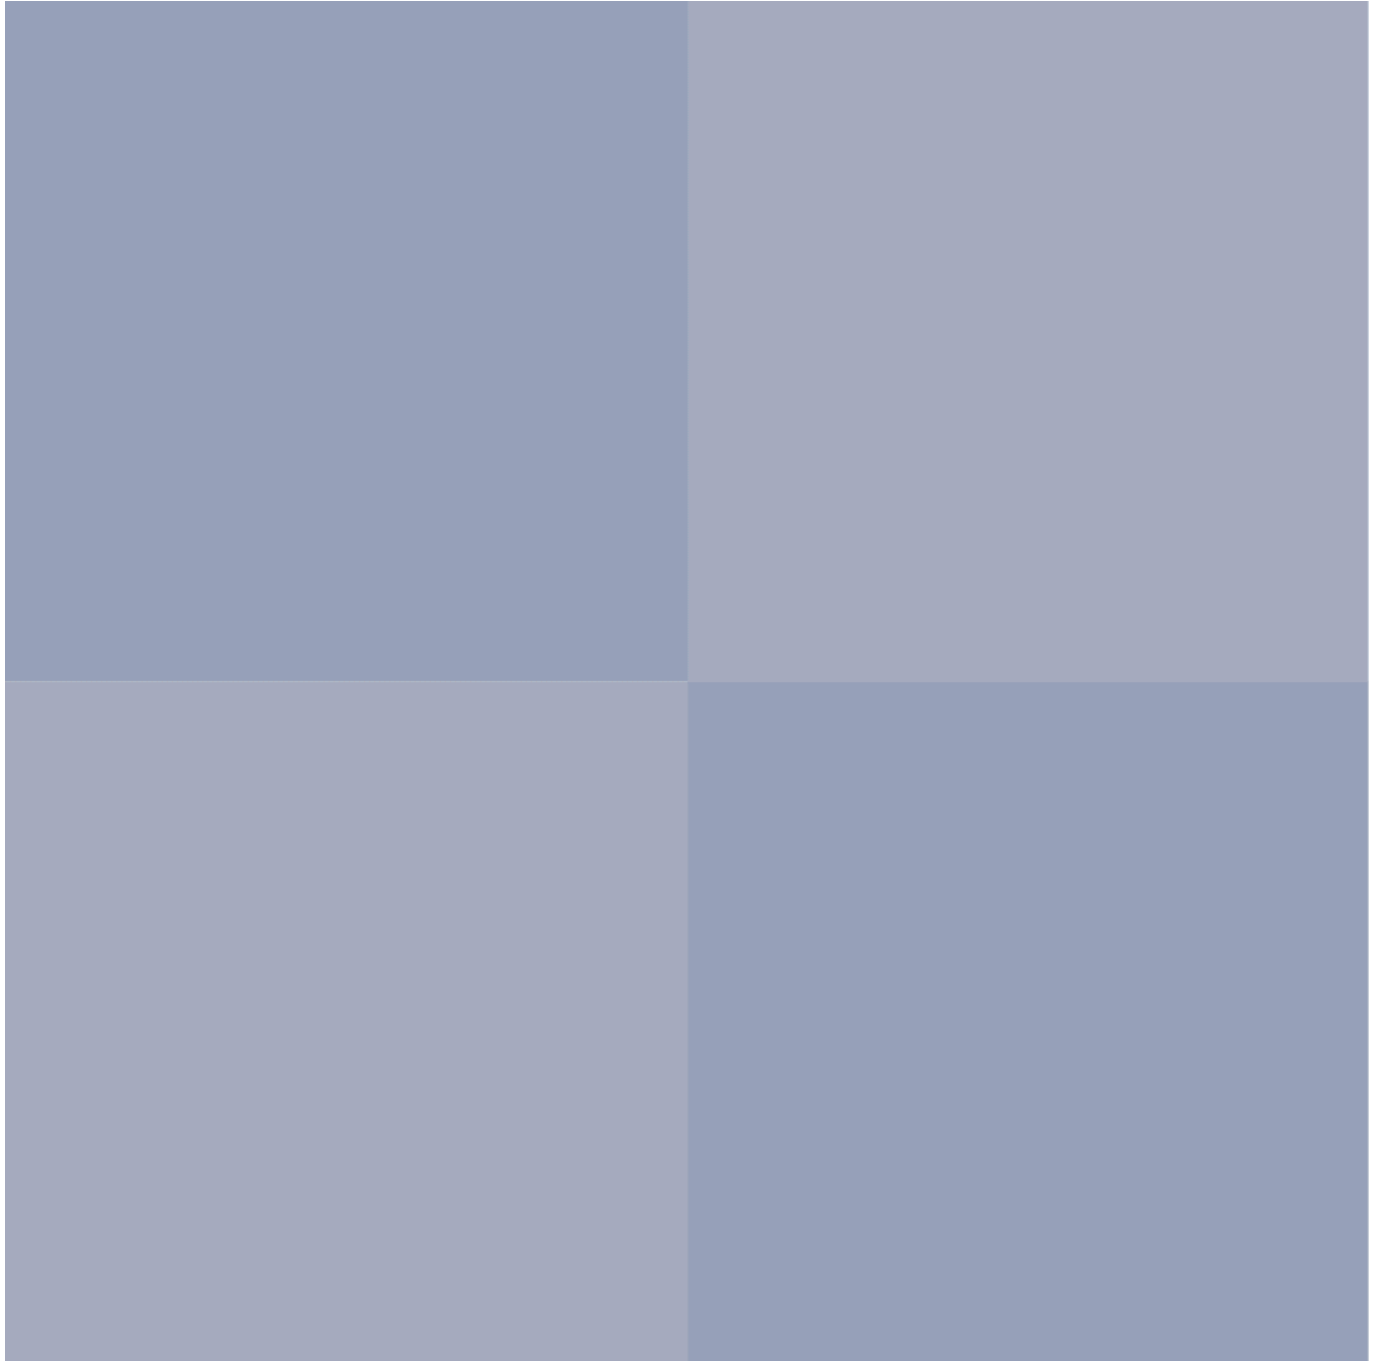

We would like to inform you that as of **1st of May 2024**, some of our current product lines, including **JET, WEB, ZENITH, EX, ZERO, PLAYA, SALINERO, BOOM** and **ECHO**, will be

discontinued. This decision has been taken carefully and reflects our commitment to offer ever better products, aligned with emerging trends and your quality expectations.

In place of these products, we have introduced the new collections **MILOS, AGAMI, AX, SNAP, DALTON, HARVEY** and **ARI**. We will soon introduce additional collections and we are already working on further novelties.

These new product lines not only represent a step forward in terms of design and functionality, but they also embody the spirit of innovation and authenticity that is the hallmark of our company.

The discontinued products will be available while stocks last.

We will continue to work to ensure that every product we bring to market reflects our values and your needs.

We thank you for your continued trust and support.

**Et al.**
